SKILLS

C# / .NET Core

T-SQL

Angular

Azure DevOps

Git

SSIS

Agility: Scrum

TRAININGS

Azure DevOps Training
 October 2021

Professional Scrum Master™
 June 2021

Engineer from Centrale Lille - IG2I
 2011 - 2016

ABOUT

I have 5 years of experience in SQL development and 3 years in C# and Angular development

I am constantly **challenging myself** and learning about new techniques and **best practices**.

I have a particular interest in **server technologies** and **DevOps practices**.

EXPERIENCES

Full Stack Developer

L'Opcommerce / Lille / 2016 - 2022

Within a team of about fifteen developers and product owners, I worked successively as a T-SQL developer, web developer, and then full stack developer on projects involving member and partner portals, APIs, and infrastructure / DevOps. Here are my most notable projects.

| CFA API | 2021 | 10 mois | 1 |

Design and development of an **API for transmitting CERFA forms, invoices, and documents**. Led inter-OPCO working groups and made technical proposals. After 3 months, **80+ training centers** were using this API, with more than **3,000 invoices received**.

- > API in **C# / .NET 6**
- > **SonarQube** for code quality assessment
- > **Azure DevOps** for continuous integration and deployment
- > **ElasticSearch / Kibana** for log storage and monitoring

| Apprenticeship Contract Component | 2018 | 4 mois | 3 |

Creation of a **CERFA entry interface** integrated into Opcommerce's various legacy portals. After 3.5 years of use, **180,000+ CERFA forms entered**.

- > Interface in **Angular 7**
- > API in **C# / .NET 6**

| CRM Redesign | 2017 | 5 mois | 3 |

Redesign of stored procedures used in the in-house CRM, data migration, and addition of an advanced search feature (**Full Text Search**).

- > Stored procedures in **T-SQL** (SQL Server 2012)
- > **SQL Server Integration Services**
